Teaching Materials

① Audio

②

③

→ Can be divided into three parts

जो केवल सुनई दे

Audio-Aids

आसान बनाना

Audio aids facilitate learning by using the sense of hearing. These aids help the teachers specially in language teaching. Examples of audio aids are radio, tape-recorder, gramophone, linguaphile, audio cassette player, language laboratory, etc.

Note जो भी केवल सुनने के माध्यम से

1. **Radio** With the help of radio, a learner gets acquainted with the correct pronunciation drill. Debates, sports events, religious broadcasts, quiz programme can really help a learner in listening to good English and adapt himself or herself.

Radio → Correct Pronunciation

2. Audio Cassette Player

We all are familiar with audio cassette or DVD player. It can be well utilized in teaching learning process by teacher. It makes teaching very scientific and effective. In this process, subject matter is recorded in DVD and played on the recorder. The student listens to that subject matter and learns it, ~~bomotum br~~ Through this, the effect of native language can be minimised by listening to correct pronunciation, intonation and stress.

3. Linguaphone Millions of people in UK and across the world have successfully learnt to 🗣️ speak English using the linguaphone.

✓ Visual Aids - जो दिखाई दे

These types of aids appeal to the learner's visual organs. They help in the attainment of the cognitive, affective and psychomotor objectives of teaching. Some of the visual tools are chalk board, soft boards, charts, maps, picture and drawings, static and working models, film strips, slide projector, over head projector, etc.

~~sentence structure, new words and org gairlot~~

1. Chalk Board or Soft Board It is used to teach sentence structure, new words and grammatical examples. Also complex topics can be explained with the help of diagrams and figures.

2. Pictures and Charts These can be used to introduce
a new topic or tell a story or teach new vocabulary.

कहानी बनाने

Flash Cards These are useful at elementary or secondary stage and can be used for small groups or group discussion. It can also be used for drill and practice or to apply information already gained by students to new situations.

Maps and Models These can be used to present geographical facts or to relate complex concepts to students or enhance logical ability in students.

Audio-Visual Aids

जो (सुनाई + दिखाई) दोनों दे

These aids appeal to both the sense organs and visual organs of the learners. They facilitate in attaining the cognitive, affective and

1. **Television** Watching television employs both visual and hearing sensors. It is very effective to develop comprehension ability of the learner as it can provide better quality instructions. Some educational programmes, quizzes and news bulletins can help a learner in understanding concepts and enrich their vocabulary and pronunciation.
